SUMMARY

I'm a highly motivated and hardworking individual who has transitioned into web development, bringing a strong foundation of technical skills and a passion for creating efficient, user-friendly web solutions. I am eager to leverage my abilities in coding, problem-solving, and design to contribute to innovative projects. While I have a background in logistics, my focus has shifted toward building my web development career, and I am excited to apply my dedication and attention to detail to this new field. I thrive on challenges, take pride in delivering high-quality results, and am a collaborative team player who values effective communication and teamwork
